DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8, 15, 17-20 and 35-42 are allowed. Applicant cancelled claims 9-14, 16 and 21-34. The previous Notice of Allowance inadvertently did not recognize claims 41 and 42 as allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art, either alone or in combination, does not disclose nor suggest, a notification interface providing a standardized application programming interface for each of multiple entities to send notifications to a user of a particular transaction in a coordinated manner, an identifier enabling identification of the user and sending the notifications to a router to deliver the notifications by consulting preferences set by the user, selecting preferences as available and the notifications sent to the user in a coordinated manner, in juxtaposition with the other claim language, e.g. claims 38-42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

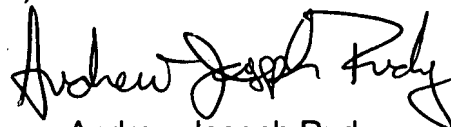

3. The drawings submitted are acceptable.
4. Further pertinent references of interest are noted on the attached PTO-892.

6. The previous May 8, 2007 Notice of Allowability noted an Information Disclosure Statement (IDS) attachment. However, this was a redundant error as the January 16, 2002 IDS was already included in the May 31, 2005 Non-Final Office Action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 571-272-6789. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ryan M. Zeender can be reached on 571-272-6790. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
